Office of the Deputy Chief of Staff, G-4

Sustainment Directorate

Munitions Division

Deputy Chief of Staff, G-4
Headquarters, Department of the Army

AMERICA'S ARMY: THE STRENGTH OF THE NATION™

With all he's carrying

Where would he be without Ammo ?

AMERICA'S ARMY: THE STRENGTH OF THE NATION™

MISSION

Provide Army Staff responsibility and oversight for policy, plans, and resources for:

-Conventional ammunition

-Missiles

-Toxic chemical storage

-Ammunition surveillance

-Demilitarization

-Explosives safety and environmental compliance

Specifics:

Distribution of the Army's munitions stockpile.

Perform ammunition and missile stockpile management functions.

Develop policy for and monitor ammo surveillance and environmental compliance.

Oversight on emerging missile, ammo and ammo information Mgt systems.

AMERICA'S ARMY: THE STRENGTH OF THE NATION™

How Ammo Works

Organizational Structure

- MDEP Mgmt ($)
- Army Regulations
  - Supply Policy
  - Explosive Safety
  - Stockpile Reliability
- Systems
  - SAAS-MOD
  - WARS/LMP
  - NLAC
- CL V Accountability
- CL V Audits
- Modularity/QDR
- Ammo Force Structure
- WRSA Retrograde

- Environmental Regulatory Impact
- EPA Munitions Rule
- Environmental Issues (munitions/ranges)
- Range Rule/Cleanup
- MPPEH
- MIDAS/MACS
- States' Munitions Rule

- Ammo Surveillance
- Ammo Maintenance
- Chemical Weapons
- Field Inspection Program
- Explosive Safety
- Prepo Maintenance Cycle
- Ammo Malfunctions
- Worldwide and Explosive Safety Ammo Review Program
- DDESB/DAESC
- Avalanche Control

- Missile Stockpile Mngt
- Missile System Oversight
- Munitions Readiness Review
- Strategic Readiness Review
- Weapon System Reviews
- New Systems Fielding

- Stockpile Mgmt
- Stockpile Reliability
- Contingency Ops
- Joint Services Spt
- Joint/Congressional Readiness Reporting
- Modularity/QDR
- Distribution Execution (CALS/MIDP)
- WRSA
- Retrograde
- APS – Class V
- OPROJ – Class V
- New Systems Fielding
- FMS/Diversion
- Exercise Planning

AMERICA'S ARMY: THE STRENGTH OF THE NATION™

Conventional Ammunition Demilitarization

- As the Single Manager for Conventional Ammunition (SMCA), the Army is responsible for programming, budgeting and execution of the conventional ammunition demilitarization for all the Services
  - Munitions identified as SMCA managed
  - Non-SMCA managed
  - Non-Army missiles
  - Army Missiles

AMERICA'S ARMY: THE STRENGTH OF THE NATION™

The Program Objective Memorandum (POM) Process

- Requirements Build:
  - Demil Costs
  - Generations
  - Stockpile Reduction
- Sustaining Program Evaluation Group (PEG) Briefing:
  - Validation of Requirement
  - Establish Critical Level
- Prioritization:
  - G-4 Programs Prioritized
  - G-4 Total Obligation Authority Spread Based on Army Priorities

AMERICA'S ARMY: THE STRENGTH OF THE NATION™

Where we are heading – "Sourcing Future Requirements"

- Retrograde and redistribution from OEF
- Posturing for the "next" fight
- Redistribution to support Rebasing
- Support to COCOMs
- Future Ammunition Logistics System

AMERICA'S ARMY: THE STRENGTH OF THE NATION

Challenges

- Funding
  - OMA
    - Taking Risk in Surveillance, Stockpile Mgmt
      - Limits flexibility to redistribute
      - Increases depot release time
  - PAA - Demil
    - Growing demil stockpile creates storage inefficiencies
    - Postpones Demil to out years, more expensive
    - Cluster Munitions Demil
- Administration Relook of Current Treaties
- Distribution Management
  - Asset distribution/Visibility
  - Rightsizing World-Wide inventory to meet war fighters need.
  - Accurate forecasting (What, Where, How Much and When)
